Reiki master Emma launches new counselling service in Donabate

A NEW counselling service has opened in Donabate.

Operated by Emma Henderson, a Fingal native, the Healing Room offers counselling, Reiki treatments and angel card readings.

Emma has worked as a Reiki master in Donabate since 2009 but now Emma has added counselling to the list of services.

'I found while treating clients with Reiki for relaxation and stress management, more clients would open up to me. I felt that it would be helpful to train as a counsellor and psychotherapist to support the work I was already doing. I find this skill very important while dealing with clients and complements the work I do at the Healing Room.'

Counselling and psychotherapy can help with personal development, anxiety, depression issues, stress management, career issues

and family issues to name a few. Emma is a fully qualified and experienced counsellor.

Reiki is a hands on complementary healing therapy that is used to support those dealing with anxiety, stress, depression or an illness. It is a very relaxing treatment and can bring about the clients own healing and wellbeing.

The Healing Room is a wood cabin in a countryside location hidden away in Donabate. Clients report feeling relaxed once they arrive because of the relaxing countryside location.

Anyone struggling need not do this alone. Speaking to a qualified professional can really help to bring about clarity and begin a healing process.

For further information contact Emma Henderson at 087 9576418 or email emma@healingroomdublin.net / emma_henderson@hotmail.com.
